The Sampson County Teacher Fellowship Grant Program

The Simple Gifts Fund is pleased to announce the continuation of the Sampson County Teacher Fellowship Grant Program. This teacher enrichment program will support projects that are personally renewing and intellectually revitalizing to individual teachers. **Projects may include summer graduate studies and research.** The Simple Gifts Fund supports lifelong learning among educators by enabling them to pursue dreams and passions, explore new areas of interest, expand existing talents and develop new ones. Fellowships are not vacations but opportunities for intentional exploration and reflection that will result in renewed energy, enthusiasm and creativity in teachers and thereby in classrooms and schools.

Project proposals will be judged on substance, clarity, feasibility, and research. Evidence of imagination and creativity are also important in proposals. It is important that applicants seek to expand their realm of knowledge and experiences through projects that are of a different scale and character than they might otherwise pursue. If the proposed project will contribute to the students' engagement and learning, applicants are encouraged to discuss that aspect in their application. Proposals that demonstrate that the teacher has engaged in substantial thought and planning will be given preference. The foundation believes engaged teachers help produce engaged students. The expected direct or indirect benefits of a proposal to the educator and her or his students must be described in the project proposal.

Eligibility

For 2023 summer grants, licensed teachers and administrators in the Clinton City school system and the Sampson County school system that have been employed as educators since fall of 2020 are eligible to apply. Guidance counselors and library media specialists are also eligible. Administrators and principals must first get approval from their school administrative board. The applicant must be currently employed full-time and must be North Carolina certified in K-12. Past Fellowship recipients who continue to meet these requirements and received their first grant before 2018 also may apply. Later recipients are not eligible. An individual may receive up to two Fellowship grants during his or her lifetime.

Time Commitment and Reporting

Applicants must commit to a six-week full-time project during the summer of 2023. The six weeks must be completed by August 15, 2023. However, the grant period will run through May 31, 2024. Therefore, recipients will have extra time beyond their concentrated, six-week summer commitment to do additional work, expand their original projects, or develop connections to classroom teaching and/or student learning. The possibilities for expansion and implementation in the classroom are as varied as the projects themselves.

Final narrative and financial reports are due by June 30, 2024. Reporting guidelines will be sent to the winners after the awards are announced.
